From: Stephanie Lane, Technical Coordinator for Referral Testing

Subject: *Hepatitis A Virus Total Antibodies replacing Hepatitis A IgG Antibody*

Date: 03/28/24

Our primary referral laboratory, Mayo Clinic Laboratories, is removing Hepatitis A IgG Antibody (HAIGG) testing and replacing it with Hepatitis A Virus Total Antibodies (HAVTA). The specimen collection remains the same. The change will take place on **April 18, 2024**.

Norman Regional Laboratory Services will continue to provide Hepatitis A IgM Antibody (HAIGM) testing.

Norman Regional Laboratory Services Test Catalog can be found at <https://nrls.testcatalog.org>

For further information, please call Stephanie Lane, Laboratory Technical Coordinator for Referral Testing, at 405-307-1186.
